Controller Amplifier: Simple
4-Source/4-Zone

Products to match your lifestyle

Music to match your mood

Complete control at the touch of a button

CAS44 MULTIZONE CONTROLLER

CAS44 Controller Amplifier: Simple 4-Source/4-Zone

Genuine Ease

Music anywhere you want it, at the touch of a button. That's what you get with a Russound CAS44 Controller Amplifier. Classical in the bedroom, rock in the den and salsa in the kitchen. A multiroom system for everyone to enjoy.

Complete Control

To make your multiroom system even more convenient to use, Russound offers a sleek, ergonomic remote control. Easy to operate and packed with useful features, the pre-programmed, learning CAS-RC remote provides an added level of access

Adaptable Convenience

For larger homes or individual rooms selected as zones, two CAS44s can be linked together for an eight zone system.* Each zone can be supported by up to three keypads for convenience. Your home, your system — endless possibilities.

Feature Rich

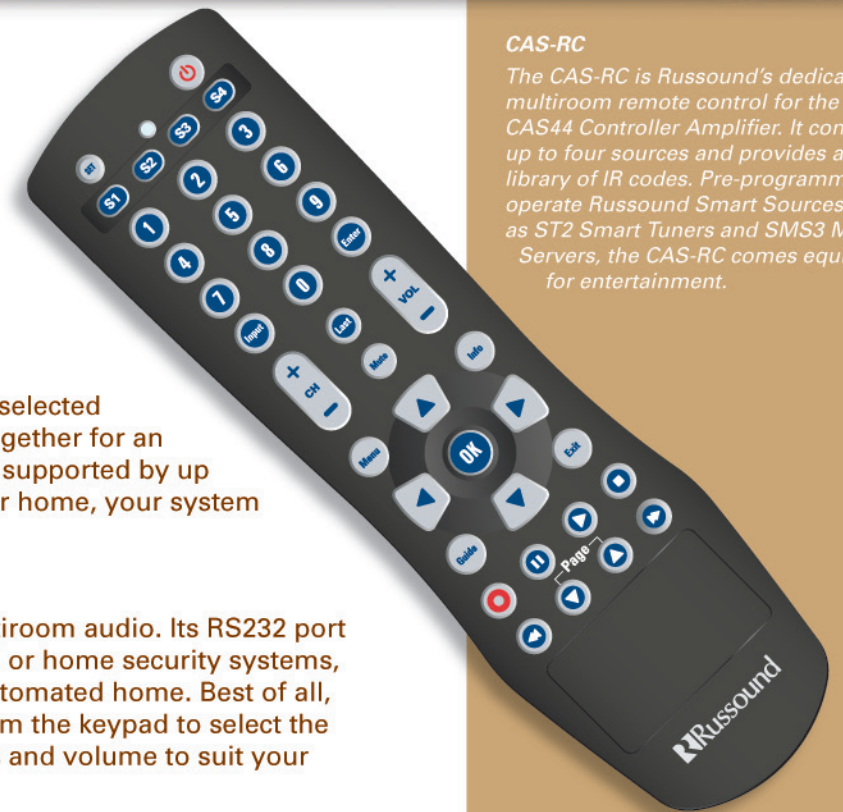

The CAS44 is a perfect choice for multiroom audio. Its RS232 port enables integration with home control or home security systems, allowing a valuable addition to any automated home. Best of all, each zone's sound can be adjusted from the keypad to select the perfect bass, treble, balance, loudness and volume to suit your listening preference.

New Original

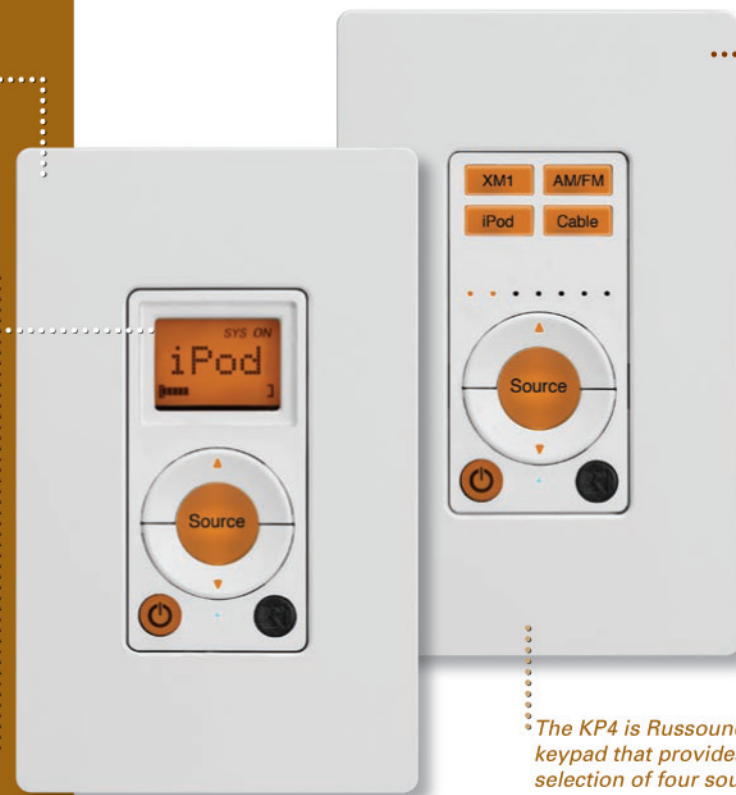

Russound designs original products that fill the needs of multiroom audio lovers. Whether you are new to whole-house audio or want to upgrade, Russound offers everything you need to enjoy music and video throughout the home. Since 1967, Russound has stood by its beliefs (known as Russoundabilities) to make sure our products are reliable, dependable and simple to operate. The CAS44 joins a long line of quality products made for your enjoyment.

CAS-RC

The CAS-RC is Russound's dedicated multiroom remote control for the CAS44 Controller Amplifier. It controls up to four sources and provides a large library of IR codes. Pre-programmed to operate Russound Smart Sources, such as ST2 Smart Tuners and SMS3 Media Servers, the CAS-RC comes equipped for entertainment.

The KPL keypad uses a five-character LCD screen to display the source playing. It also allows you to adjust bass, treble, balance, loudness and volume.

Elegant Access

With a multiroom system, what you see are elegantly designed keypads and in-wall or in-ceiling speakers. Russound's KP4 and KPL keypads provide access to your music library through attractive, informative displays. What you get is so much more: one touch control, bass, treble, balance, loudness and volume adjustment, whenever you want it. Available in five colors to match your home's style.

*The KP4 is Russound's basic keypad that provides direct selection of four sources.
